DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12, 15, 16, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson #6,049,942. Johnson discloses a soil aerating machine comprising a nozzle 45 connected to a boom arm 31. Furthermore, Johnson discloses the method of inserting a gas injection tube 45 into the earth adjacent buried septic systems 2.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 14 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson '942 in view of Baxter #5,802,996. Johnson discloses the claimed invention except for the pneumatic hammer. Baxter teaches that it is known to provide a pneumatic hammer (generally shown at 16). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a

pneumatic hammer, as taught by Baxter in order to facilitate insertion of a nozzle into the ground.

Allowable Subject Matter

5. Claims 1-11 allowed.
6. Claims 13 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

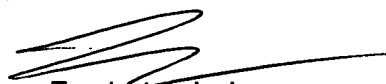

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
